## **Summer in Britain**

A lot is happening in summer 2012. Whatever the weather, the Olympic Games will go ahead, and a whole summer of cricket is planned. With so much going on, there is the opportunity to develop communication skills for those who have difficulty following the words.

Signing is a simple way of reinforcing a verbal message, and in most cases there is a visual connection between the sign and the concept being conveyed. By using signs consistently a link can be established with the words and the whole communication process becomes easier.

Signalong has the largest illustrated sign vocabulary in Britain, adapted from British Sign Language for the needs and abilities of children and adults with speech, language and communication needs.

Signalong is made accessible by its approach to how the signs are formed, analysing them for handshape, orientation, placement an movement, supporting the descriptions with clear line drawings. This method enables families and practitioners to produce accurate signs relevant to their situation. Special vocabularies can be compiled on request.

The Signalong Group is a charity (no 1039788) which provides resources, training and free advice, and readily works with others in the field to promote communication skills for children an adults with speech, language and communication needs.

Training is provided both directly by the charity and through its national network of registered tutors. For information about courses, or becoming a trainer, please contact Sarah on 0845 450 8424, email sbissett@signalong.org.uk.
